### BELTPACKS

#### CLEAR-COM

RS601 1-ch. standard <i>Single channel w/3-pin female and male XLR, 4-pin male XLR headset connector, 2.5mm AUX headset connector, RS-232 data connector. Allows use on a TW line without loading down channel A.</i>	RS601	\$ 247.00
RS602 2-ch./6 pin cable <i>Dual channel w/ 6-pin female and male XLR, 4-pin male XLR headset connector, 2.5 mm AUX headset connector, RS-232 connector. Allows audio program connected through pins 5 and 6 of the intercom line connector to be looped through to other RS-602/622's in daisy chain. AC and DC Call signaling on both channels.</i>	RS602	341.00
RS603 2-ch./3-pin cable <i>Dual channel w/3-pin female and male XLR, 4-pin male XLR headset connector, 2.5 mm AUX headset connector. Onboard switch selects loop through connector as audio program in. RTS line compatible. AC call signaling on both channels; DC call signaling on Channel B (reversible). Channel exclusive allows use as a single channel beltpack. Requires a TWC-701 or TWC-704 (sold separately) for 2-channel operation.</i>	RS603	378.00
RS622 2-ch. stereo/6-pin <i>Similar to the RS-602 w/split-ear operations via 6-Pin male XLR headset connector. Line connection through 6-Pin female XLR. Intercom channels can be mixed into the opposite ear with V-Pack software.</i>	RS622	378.00

RS623 split-ear/6-pin cable <i>Similar to RS-603 with split-ear operation via 6-Pin male XLR headset connector. Intercom channels can be mixed into the opposite ear with V-Pack software. Requires a TWC-701 or TWC-704 (sold separately) for two-channel operation.</i>	RS623	\$ 381.35
